

## SOME USEFUL ADVERBS IN FRENCH

**Goal:** By the end of this lesson, you should be able to attach an adverb of *temps* to a verb when answering *quand* questions. A few days ago, we opened the chapter on adverbs in French. Adverbs are attached to verbs, which they modify (but sometimes, adverbs can modify adjectives, or even other adverbs, too). **Today's lesson will be about adverbs of *temps* only.**

**Important:** This list of adverbs I am about to provide is not exclusive. These are just adverbs you are more likely to use or hear daily. For more information on the subject, feel free to conduct your own research on the topic. You can also email me to request more information. I will gladly help☺.

## Les Adverbes de Temps
